THALES

STA IdM Connector 1.0.0

CUSTOMER RELEASE NOTE

Issue Date: 17 January 2023
Document Part Number: 007-001857-001, Rev. A

Contents

Product Description

The STA IdM Connector is based on ConnId framework version 1.5.0.0. When used with midPoint (an open-source identity management and identity governance solution), along with other connectors, it allows synchronization of users, as well as management of their associated user groups between, **SafeNet Trusted Access (STA)** and a third-party directory (for example, **Active Directory**, **Azure Active Directory**, etc.) using midPoint.

Resolved and Known Issues

Issue Severity and Classification

The following table serves as a key to the severity and classification of the issues listed in the **Resolved Issues** table and the **Known Issues** table, which can be found in the sections that follow.

Severity	Classification	Definition
C	Critical	No reasonable workaround exists
H	High	Reasonable workaround exists
M	Medium	Medium-level priority problems
L	Low	Low-level priority problems

Release Description

Release Summary – STA IdM Connector 1.0.0

ConnId based IdM connector for identity synchronization with SafeNet Trusted Access.

Known Issues

The following table provides a list of known issue.

Issue	Synopsis
AINT-8075	**Summary:** Reconciliation tasks for Azure AD and AD groups, which are synchronized with STA, is not working.

Compatibility and Upgrade Information

The connector has been tested on the following versions:

> midPoint 4.4.3

> ConnId framework 1.5.0.0

> STA IdM Connector version 1.0.0

Product Documentation

The following product documentation is associated with this release:

> SafeNet Trusted Access for Identity Management with Active Directory: Configuration guide.

We have attempted to make the documents complete, accurate, and useful, but we cannot guarantee them to be perfect. When we discover errors or omissions, or they are brought to our attention, we endeavor to correct them in succeeding releases of the product.

Support Contacts

If you encounter a problem while installing, registering, or operating this product, please refer to the documentation. If you cannot resolve the issue, contact your supplier or Thales Customer Support.

Thales Customer Support operates 24 hours a day, 7 days a week. Your level of access to this service is governed by the support plan arrangements made between Thales and your organization. Please consult this support plan for further information about your entitlements, including the hours when telephone support is available to you.

Customer Support Portal

The Customer Support Portal, at https://supportportal.thalesgroup.com, is where you can find solutions for most common problems. The Customer Support Portal is a comprehensive, fully searchable database of support resources, including software and firmware downloads, release notes listing known problems and workarounds, a knowledge base, FAQs, product documentation, technical notes, and more. You can also use the portal to create and manage support cases.

> **NOTE:** You require an account to access the Customer Support Portal. To create a new account, go to the portal and click the **REGISTER** link.

Telephone Support

The support portal also lists telephone numbers for voice contact (Contact Us).

Email Support
